

## In thanks for health care workers fighting COVID-19 pandemic

# TIF will participate in #LightItBlue Campaign

Starting Friday, May 1, 2020 at Tokyo International Forum's Glass Building

In thanks for the doctors, nurses, and other health care workers dedicated to treating patients infected with COVID-19, Tokyo International Forum Co., Ltd. (Headquarters: Marunouchi, Chiyoda-ku, Tokyo; President & CEO: Kiyofumi Kamijo) will participate in #LightItBlue by illuminating the facility with blue light starting Friday, May 1.

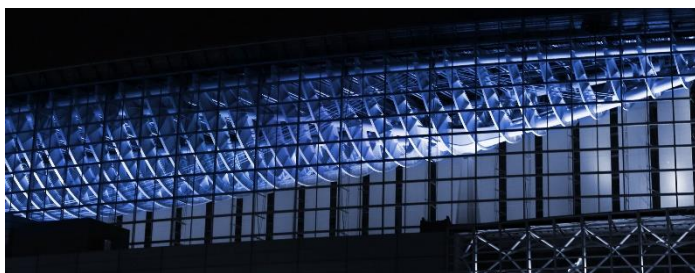

#LightItBlue is an effort to show thanks to the health care workers fighting COVID-19 using blue illumination. The campaign started in the UK and is currently spreading in the US, Japan, and throughout the world.

TIF is supporting this effort by illuminating its Glass Building with blue light. We hope for the earliest possible end to the contagion, and we express our appreciation and respect for all those fighting on the front lines.
