# Message from Our President & CEO

President & CEO  
Kiyofumi Kamijo

I'm very pleased to have this opportunity to express my gratitude for your continued support of our business activities.

The Tokyo International Forum opened as the first convention and art center in Tokyo on the site of the former Tokyo Metropolitan Government building in 1997. Since that grand opening, our facilities have been utilized for more than 90,000 events thanks to the highly advantageous location at the economic heart of Japan, the high-standard of facilities and equipment, and provision of high-quality services. Throughout those years, we have also dedicated ourselves to the creation, exchange and dissemination of diverse aspects of culture and information, such as by the planning and running of our own events that contribute to fostering a lively atmosphere in and developing the charms of the local community.

In fiscal 2019, we closed our halls and other rentable facilities for three months from July to September for test events and preparations for the Tokyo 2020 Olympic and Paralympic Games. Yet, our facilities were used to hold international conferences, such as the World Hydrogen Technologies Convention (WHTC 2019), and many events in a variety of genres, including academic conferences, ceremonies, exhibitions, concerts, and musicals, allowing us to contribute to cultural promotion and economic activities.

As a venue for the creation of the hustle and bustle of the Otemachi, Marunouchi and Yurakucho areas, we ourselves plan and host events that are full of charms unique to Tokyo International Forum, including La Folle Journée TOKYO, Marunouchi Kids Jamboree, and J-CULTURE FEST: Japan, Peaceful Mind, and First Shrine Visit of New Year. We also work with the Tokyo Metropolitan Government to promote their policies through events, such as TOKYO FANTASHION, and collaborate with local communities in various initiatives.

Although our business performance has been satisfactory, the global spread of the coronavirus disease (COVID-19) since February 2020 has caused major impacts, forcing many events that were scheduled at our facilities to be cancelled, and the Tokyo 2020 Olympic and Paralympic Games to be postponed for one year.

While the outlook for the end of the coronavirus epidemic is still unpredictable, Tokyo International Forum recognizes its role of supporting the cultural promotion and economic activities of Japan, and as such, we will work closely with the Tokyo Metropolitan Government and other stakeholders and strive to act as one organization to overcome this difficult situation.

We look forward to your continuing support and patronage of our project activities at the Tokyo International Forum.

## Events Planned and Run by Tokyo International Forum

Taking advantage of its venues as spaces to create and disseminate culture, Tokyo International Forum carries out its own events that bring a lively ambience to the area and make a contribution to the people of Tokyo and society as a whole.

### La Folle Journée TOKYO 2019

Audience filling up approximately 5,000 seats in Hall A

The epoch-making La Folle Journée music festival originated in Nantes, France, with the Tokyo International Forum holding the first La Folle Journée au Japon "Days of Enthusiasm" music festival (present La Folle Journée TOKYO; hereafter LFJ) in Japan in 2005. In that first year, the festival welcomed a total of 320,000 visitors, and it has since grown into the world's largest classical music festival. It is held every May in Tokyo during the Golden Week holidays, and has firmly established itself as a seasonal event. The six major features/attractions of LFJ are:

- 1 A new theme is given each year;
- 2 Each performance lasts about 45 minutes. Visitors can spend the entire day sitting in as many programs as they want;
- 3 Performances by first-rate artists from around the world offered at a reasonable price;
- 4 A variety of free events;
- 5 Everyone from infants to aficionados can participate in a picnic mood;
- 6 The entire city is filled with music and festive air.

The 15th anniversary festival held in 2019 featured programs with enhanced content in the areas surrounding the Tokyo International Forum including Otemachi-Marunouchi-Yurakucho, Kyobashi, Ginza, Nihonbashi, and Hibiya. The theme was "Carnets de voyage—Music inspired by travel." A full playlist of masterpieces that were created by composers of various periods inspired by travel highlighted the glamorous festival.

■ J-CULTURE FEST: Japan, Peaceful Mind, and First Shrine Visit of New Year

J-CULTURE FEST: Japan, Peaceful Mind, and First Shrine Visit of New Year started in 2017 as a Tokyo International Forum project to commemorate its 20th anniversary with an aim to provide opportunities to approach Japanese culture and find new values within. Favorably received by both audiences and exhibitors, the event is held every New Year's Day as a legacy of the 20th anniversary.

The event consists of performance programs (subject to charge) featuring Japan's prominent performing artists of music, kyogen, and kabuki, and the New Year's Theme Park (free admission) introducing a series of programs to experience, discover, and savor the taste of traditional Japanese culture and the New Year's customs. The fourth Fest held in 2020 offered a series of programs that befitted the first New Year of the Reiwa Era. Precious items including the replicas of garments worn by the Emperor and Empress of Japan on the occasion of the Enthronement Ceremony in October 2019 were also exhibited.

Dates	January 2-3, 2020 * The exhibit in the Lobby Gallery continued until Jan. 15
Venues	Hall B7/B5/E, Lobby Gallery, Glass Building 1F (beside the statue of Dokan Ota), Plaza

■ Manyoshu Meets Musical

A Breeze in Reiwa—A Young Poet's Tale—

January 2-3, Hall B7

An original musical show created based on Manyoshu (literally translated as *A Collection of Myriad Leaves*, a collection of ancient Japanese poetry) which garnered attention as the name of the era, Reiwa, was derived from the script. Koji Yamamoto, Somegoro Ichikawa, and other prominent and energetic performers and staff from musicals, *Kabuki*, Japanese dance and Takarazuka Revue staged a fresh performance which was perfectly appropriate for the first New Year of Reiwa.

Performers: Koji Yamamoto, Somegoro Ichikawa, Kikunojo Onoe, Shinya Niro, Nene Yumesaki, others

Special Exhibitions: Heian Court Sports Stadium and Early Spring of Reiwa "Feast of Plum Blossoms" (free admission)

January 2-15, Lobby Gallery

In tribute to the TOKYO 2020 Olympic and Paralympic Games, the Heian Court Sports Stadium showcased traditional sporting games enjoyed by nobles of the Heian era, including *kemari* (ancient football game), *umayumi* (horseback archery), and *dakyu* (ancient Japanese polo), introduced with the display of replicated dioramas and life-sized costumes. The Early Spring of Reiwa "Feast of Plum Blossoms" exhibited a diorama of a plum blossoms party recreating the scene in the verse of Manyoshu, a collection of ancient Japanese poetry from which the new era name Reiwa was derived. In celebration of the early spring of the new Reiwa era, replicas of *kourozen-no-gohou* and *junihitoe* garments worn by the Emperor and Empress of Japan on the occasion of the Enthronement Ceremony were also displayed.

Events Jointly Organized with Tokyo Metropolitan Government

As a base for disseminating cultural information, Tokyo International Forum is actively collaborating with the Tokyo Metropolitan Government in carrying out their policies.

■ TOKYO FANTASHION 2019 May

Every year since 2014, Tokyo International Forum has been hosting the fashion event TOKYO FANTASHION for general consumers in an aim to actively highlight the appeal of Tokyo's eminent fashion brands, to disseminate the Cool Japan initiative originating in Tokyo, and to nurture and support young fashion designers. The event is organized by CREATORS TOKYO, a team of designers consisting of winners of the Professional Category of the Tokyo New Designer Fashion Grand Prix for up-and-coming young fashion designers. In 2019, seven brands jointly ran the fashion show, and a record-breaking 23 brands opened pop-up shops (sales event) where visitors can purchase clothes that were presented in the show. The lobby showcased collaborated works by Japanese textile manufacturers and designers, and inside the venue a drink counter was set up providing a relaxing atmosphere for visitors to enjoy the event as they please.

## Central City MICE\* Activities

Tokyo International Forum plays a leading role in attracting and executing MICE in Tokyo and Japan as a convention and art center that represents Japan.

Located in the capital's Marunouchi district, the center of Japanese business that has enhanced its charm as a cultural area and tourist destination in recent years, Tokyo International Forum is adjacent to the commercial district of Ginza/Yurakucho. In close proximity on the north side is Tokyo Station, a core terminal in Japan's rail transport network, and on the south side, a direct connection to Yurakucho Station makes access convenient. The outer garden of the Imperial Palace, the famous Ginza shopping area, and the theater district of Hibiya are also located within walking distance of the Tokyo International Forum. There is also plentiful accommodation around the

Tokyo International Forum, from international luxury hotels to reasonable business hotels. We are working on attracting and holding MICE on an international scale by joining those various facilities and functions that are clustered around the whole area—including accommodation, commercial and business facilities as well as sightseeing spots—with the reliable, highly functional Tokyo International Forum as a convention facility. We are also working as the core of Central City MICE, providing a high value-added MICE environment in the whole area with cooperation from the Tokyo Metropolitan Government and other regions.

\* MICE: Acronym of Meeting, Incentive travel, Convention, and Exhibition. A collective term for business and other events that involve the gathering of many people and the undertaking business activities.

Major international conferences held in fiscal 2019 are outlined below.

### The 8th World Hydrogen Technologies Convention (WHTC 2019)

WHTC is an international conference that brings together the latest research findings, technologies, social implementations, policies and future information on hydrogen energy in Japan and the world in an aim to advance towards Sustainable Development Goals (SDGs). Governments, industries and universities (focusing on hydrogen) gathered in one place and exchanged their ideas on technologies and policies related to hydrogen energy across the world, and provided a place to deepen international cooperation while actively discussing how to implement a low carbon society in the future.

### Full installation of mobile style communication robot

April 2019

As demonstration experiments of the mobile communication robot RoBoHoN, conducted in the Information area for one month in the last fiscal year, proved effective in enhancing communication with visitors, RoBoHoN was fully installed from April 2019. This initiative aims to project the charm of the Tokyo International Forum, Tokyo, and Japan by welcoming many people including foreign visitors at the Information area in a Japanese omotenashi (hospitality) style, giving a sense of Tokyo in the near future, and providing an amazing and enjoyable experience. RoBoHoN is installed in the Information area on the 1st floor of the Glass Building. It greets and speaks to people, provides building information, and performs dances and other actions, and is well received by inbound tourists.

### Letters of appreciation from the Superintendent General

June & December 2019

Each and every day we work to prevent fires and accidents, and we are actively involved in the Terrorism-free Tokyo initiative and fully cooperated in the security and policing activities during the visit of the President and first lady of the U.S. in May and the series of ceremonies related to the enthronement of the new emperor in October. In recognition of these initiatives and cooperation, Tokyo International Forum received two letters of appreciation from the Superintendent General in FY2019.

### In-house Firefighting Drill Competition

July 2019

Every year, Tokyo International Forum participates in the In-house Firefighting Drill Competition with other companies within the jurisdiction of the Marunouchi Fire Department. In preparation for the outbreak of a fire or natural disaster, each office and building, including TIF, organizes an in-house fire brigade, and the competition pits these fire brigades against each other on the scores from their normal training drills. Three excellent members chosen from each fire brigade make up a team and compete on the speed and accuracy of their firefighting activities (outbreak of fire → calling 119 → use of fire extinguisher/evacuation guidance → spraying water using a fire hydrant). In 2019, our team competed well in the men's team and guard team categories.

### Achieved New Guinness World Record™!

August 2019

Challenge the Guinness World Records by Making Rugby Shirts program at the Hop! Step!! 2020!!! Marunouchi Kids Jamboree Special Session achieved a new Guinness World Record for the largest display of origami shirts with 3,474 shirts folded by participants during the event. The results were announced on August 15 at the Kids Stage, and the official judge presented an official certificate to the representative of children that took part.

### Raising rugby cheer momentum

August-November 2019

The entire nation was gripped with rugby fever in 2019. To raise momentum to cheer for the ruggermen, Tokyo International Forum cooperated in decorating our facilities with rugby-related displays from August to November 2, and hosted the Neo Yataimura Super Night—Rugby Special—on September 20. For the Rugby Special event, high school students from New Zealand performed their national team All Black's famous Haka dance, and the Plaza was filled with heated excitement for rugby.

### Test implementation of mist spraying devices

July-September 2019

To counter the extreme summer heat in recent years, we conducted a test implementation of mist spraying devices. The device will automatically spray extremely fine water particles when all of the preset conditions are met: ((i) temperature is 27°C or higher, (ii) humidity is 75% or higher, and (iii) windspeed is 3 m/s or less). It aims to decrease the temperature near the ground surface by cooling the air through evaporation of the mist. This initiative was conducted with the cooperation of the Otemachi, Marunouchi, and Yurakucho Mist Spraying Executive Committee. Tokyo International Forum will use the precious data collected during this test period for future heat controls.

## Restroom renovations

October 2019

As part of our efforts toward a barrier-free environment, Tokyo International Forum is renovating its accessible restrooms. This year, we installed facilities for those using an ostomy bag within the wheelchair-accessible restrooms in the backstage and ante-room areas on the 4th and 7th floors in D Building.

## Letter of appreciation from the Governor of Tokyo

December 2019

Tokyo International Forum received a letter of appreciation from the Governor of Tokyo for cooperating in the Zero Emission Tokyo initiative.

The letter acknowledged the donation of 14,540 tons of accumulated credits achieved through energy-saving measures at our facilities based on the Tokyo Cap-and-Trade Program. We at Tokyo International Forum look forward to actively engaging in further efforts to achieve the goal of Zero Emission Tokyo.

## Complete renewal of official English website

January 2020

We renewed our official English website which is now easier to use and more appealing to foreign users. Features include: (1) easy search of information; (2) mobile-friendly compatibility with smartphones and tablets; (3) enhanced pages for event planners, especially for overseas MICE organizers; (4) faster and easier updating; and (5) automatic multilingual translation of the English site.
